### LETTER FROM SAN FRANCISCO.

SAN FRANCISCO, Dec. 30. The glories of Christmas are over, the clerk of the weather and Santa Claus having had a private arrangement with each other. Christmas day itself was as fine a day as any one could possibly wish to see. And this is a very exceptional case I can assure you. While I write it is raining cats and dogs, and as the wind is S. E. we may look for a continuation of it. For many days we have been comparatively speaking, exempt from the usual result of festivities in San Francisco, such as murders, suicides, assaults, and so on. Our sensational paper raised a hue and cry with respect to an unfortunate man who was found in the Western Addition bleeding to death from a hole in his side, but on inquiry it appeared he had, in a drunken frolic, attacked a ferocious dog and got the worst of it. The hoodlums gave a great amount of trouble by their attacks on corner grocery stores. But take it all in all, it was a quiet time.

A STREET CAR SENSATION. A bon vivant, preparing for the customary observance of Christmas, selected a nice live turkey and carried his prize to a street car, stowing it away under the seat. Of course he had to give way to some ladies who came in and insisted on sitting together where there was room for only one. This brought one of the ladies in front of the turkey, and the passengers who had seen the live stock packed away prepared themselves for the denouement which they knew would follow. And it came. The ladies were engaged in an earnest conversation, when one of them sprang up with an exclamation of fright and threw herself upon the opposite seat. Seeing the red turkey on the floor, her fright increased and she went into a faint, as she murmured "Something has bitten a piece out of my leg." She was revived by the whiff of a cigar in the mouth of a passenger on the rear platform, and restored to her former composure on being assured that the attack was from the national Thanksgiving bird.

HOUSE DIRT CHIEF. On Saturday last thirty-six frame buildings, situated at the corner of 5th and Dupont streets, were sold by auction, the land having been leased for the erection of a new market. These frame buildings, more like dry goods boxes than anything else, are mostly occupied by those who delight in "wearing the green." The prices obtained for the buildings ranged from two dollars to twenty dollars, and the whole thirty-six fetched just \$290. Many of the present occupants bought the houses that had long covered them, under the pleasing impression that they would be allowed to remain in quiet possession, and much forlorn language was indulged in when the discovery was made that this would be impossible. One lady remarked to a by-stander who endeavored to explain the circumstance of the case to her: "Move me house, is it? I'd like to see some of them tough this shanty, bedad me childer were all born here, and now that its mine and I've paid for it, I'd break every bone in their body, so I would, if they were to move me house."

THE BUILDING SEASON. The prospects for the coming building season are brilliant in the extreme. Buildings that will cost in the aggregate several millions of dollars are already referred to by the press. There is Sharon's new hotel, Peters' new market, The Mechanics Institute building, the Opera House, Michael Reese's block, Stanford's private dwelling house, besides many other private residences. Take it altogether the prospects are in favor of the builders making a regular harvest.

THE NEW CITY HALL. A committee appointed from members of the Legislature is now occupied in enquiring into the management of the affairs of San Francisco's elephant, the new City Hall. So far there has been great confusion of testimony, and considerable disagreement as to the cost of the building. The architect states one thing, the commissioners say another. The cost of the building was originally fixed at \$1,500,000, what its actual cost will be, none can tell. It is proposed to run it up substantially for about two stories and then cover it temporarily until the city can afford to finish it in good style, thus rendering it an eyesore, instead of what it was first intended to be—an ornament to the city.

THE NAID QUEEN. The largest audience that has ever been packed within any place of amusement on this coast, witnessed the first representation of "The Naid Queen," at the California, on Christmas night. I am at a loss to find terms of praise sufficient for the artists upon whom the task of presenting this spectacle devolved. Nothing had been left undone, but it was presented even on the first night without any jar or flaw for adverse criticism. The facile brush of that master artist, W. T. Porter, the scenic painter of the theater was discernible in every scene. The fourth scene of the first act, representing the Grotto on the Rhine and the Naid's Bath, was a beautiful picture; and in the last act where the castle is entombed, the artist, in conjunction with the machinist, applied every effect which art and mechanical genius can command. The nature of the plot of the play enables the

management to introduce several side specialties which vary pleasingly with the array of gorgeous dresses and scenery. These specialties comprise Professor O'Reardon on the "Tumbler-o-rama," Misses Sophie and Betty Rennelberg, Mlle. Gauguin and a corps de ballet; the Girard Brothers, contortionists and gymnasts; *even multo alio.* The whole affair must be seen to be appreciated. It is simply gorgeous in every respect.

STOCKS. The excitement still continues in stocks. Ophir is the favorite; less than five months ago it could be bought at about \$15, now it is selling close on \$300. Savage too, in the same period has gone from \$32 to \$175, and every other description of Comstock mine is participating in the rise. The brokers are full of business, and a board session lasts about three hours instead of about an hour or less as in slack times.

AMUSEMENTS. I have already spoken of the great spectacle at the California which will certainly run for some time. At the Minstrels, George Knight a Dutch comedian has appeared, but as he seems to be half Dutch and half Paddy, the result is far from satisfactory. Some bonless boys and some educated dogs, also have a place in the performances. At the Opera House there has been a split. Mr. and Mrs. Arnold's engagement has come to a somewhat abrupt conclusion, whilst Miss Galton and Mr. Kelleher are taking a much needed rest. *Ici on parle francais et chekmate* now fill the bill, with Miss Lee and John Howson, as principals. A foot race for \$400 a side was announced but owing to the rain has been postponed until a more favorable season. The contestants were McGuire and Gilpin.

MISCELLANEOUS. John McCullough is expected back on the 4th of January. Anniversary parties are now in order. Chronicle pitching into Cockrell the new Chief of Police. Cause, (real) unknown. Small pox said to be flying around. Madam Anne, Bishop last heard from at Heidelberg.

The DAILY HERALD has nearly DOUBLE the Circulation of either contemporary paper published in Los Angeles. As an advertising medium it is consequently of DOUBLE their value.

## Gas, or Smoke?

"It has all ended in smoke," is often said of an enterprise that has failed of accomplishment, and although Los Angeles may be said to have Gas Works, and is popularly supposed to be lighted with gas, yet it needs but a short sojourn here to become convinced that this is a mistake, and that instead of gas, we are burning smoke. How long will the people of this city put up with such an imposition. The Council granted the Gas Company the right to erect gas works, to lay gas pipes, and to furnish gas; but it has all ended in smoke. Certainly then, we are under no obligation, legal or moral, to continue this monopoly. The people are willing to pay a fair price for a good quality of gas, and will patronize a company liberally. The City Council will light the streets, when they can get light for a reasonable figure, but when it comes to paying \$72 a year for each lamp, for smoke, tax-payers demur. The HERALD likes to see everybody making money, and it has no objection to the present gas company earning good fat dividends, but does not enjoy paying \$75.00 per thousand feet for smoke, nor does it particularly admire to witness Los Angeles in darkness, these rainy nights. The smoke from garbage is unpleasant to its olfactory, injurious to its lungs, and positively ruinous to its eyes, hence its cry for gas. If the present company will furnish that article for a fair price all right, but if not, let us have a company that will. All this talk about exclusive privileges is bosh. The Council had no right to make any such grant, any more than it has to give to one person the sole right to sell butchers' meat, or peddle vegetables. The people of Sacramento, tired of their gas monopoly, have organized another company and set new works in operation. Now their streets are lighted at a cost of \$3.50 per lamp, per month, and the only thing the old monopoly grows about, is that it didn't get a chance to do the work still cheaper. Let us have a reform of the old company, or a new one, we don't care which.

## Vasquez and his Gang.

Though almost a week has passed away since the unparalleled outrage perpetrated at Kingston, in Fresno county, and though this is the second raid made by the desperado Vasquez, we have not yet learned of any decided measures being taken by the authorities to bring this band of ruffians to justice. That a town can be captured, and its citizens turned over to plunder is a disgrace to the whole State, and the authorities at Sacramento should take such action as will ensure the utter extermination of this band of cut-throats. Rewards for these criminals, dead or alive, ought to be offered in an amount that will fill the mountains with eager pursuers. Extermination is the only cure for these marauders.

THE un-"educated" blackguard across the street, some time since, being out of news to publish, devoted himself to writing an account of an imaginary bigamy case, locating it in San Bernardino county. The court was made to decide that a man could have two wives if he chose, and the world, as far as the writer was concerned, was left to suppose that bigamy was judicially established in our neighboring county. Once started, of course there are always folks that will believe a lie, no matter how transparent, and the citizens of San Bernardino have the satisfaction of seeing this silly falsehood floating through the Eastern press. Naturally they express their contempt for a paper that has nothing better to do, and among his other "kind words" of New Year's eve, our twilight scandal-monger calls everybody an ass, that can't appreciate the humor of his witless squib.

THERE are a few chaps out in Arizona who have departed slightly from the Quaker policy of our good President in their mode of treating the Apaches. From the Arizona Miner of the 26th, we learn that Lieutenant Rice, of the 23d Infantry, had just got in with his command, and reports a fight with the Indians in the foot hills of the Matamoros mountains near the big bend of the East Fork of the Verde river. The first rancherie struck was that of old Del-Che who barely escaped with four warriors and four women. From the second rancherie only one escaped. Twenty-three were killed and twelve, all women and children, were captured.

The Los Angeles Herald has been straining itself for weeks to prove that the Wilmington Breakwater isn't worth a continental d-n. It is all love's labor lost, for all the world and the balance of mankind knew that long ago. (San Diego World.)

The HERALD has not been straining to prove that the Wilmington Breakwater is not worth a continental d-n. All mankind didn't know that long ago, nor even now. The HERALD has been striving to show that the railroad terminus is now in the wrong place,

and will be so for some time to come. It has said little, if anything, about the Breakwater.

## Controlling the Railroads.

The Committee on Fares and Freight of the San Francisco Chamber of Commerce, have made a voluminous report on the subject of State control of railroads. Their conclusions are not very certain, and the information furnished is of the same rather indefinite character. They propose two bills, one to create a board of Transportation Commissioners, and the other to punish unjust discriminations, and extortion, in the transportation of passengers and freight.

If the public is as much at sea in reference to railroad matters as the Committee confesses itself to be, we should be very cautious in legislating on the subject. A carelessly framed and defective act will do more to retard the course of justice, and it is better to wait a little while, and be sure we are right before we go ahead.

THE Board of Supervisors of Santa Barbara, in their official capacity, have recommended J. T. Richards for the appointment of District Judge, to succeed Judge De la Guerra, whose resignation has been tendered and takes effect from the 1st of January.

HE Express desires that we shall be more explicit. That reminds us of a darkey in New Orleans. He was making himself obnoxious on the street one day, when a bystander knocked him down. Jumping to his feet he demanded of the fistful individual, "Did you hit me, sah?" "You bet," was the reply. "Did you hit me, sah?" again queried the excited darkey. "Of course, and what are you going to do about it?" "Oh nuffin, only I wanted to be certain, sah."

Bunker Hill.

A little over a year more, and the 100th anniversary of the Battle of Bunker Hill will take place. A little band of heroes, then inaugurated a struggle, which brought untold results. It is very fitting that their deeds should be commemorated. The nation at large is very justly arranging for a celebration on an extensive scale, of the centennial anniversary of this event. This will instill patriotic impulse into the souls of those of the coming generations, and prepares them for the struggles, which they, in life, must undergo. Overhanging Los Angeles is a hill similar to Bunker Hill—may it be larger. From it all the city can be seen and the country for miles around. On this hill also, are military marks, the remnants of a fort, which was built for the protection of liberty in this State. This hill has an avenue running along its crest, and our friend Beaudry, through whose influence chiefly it has been opened, has very appropriately named it Bunker Hill. The City Surveyor has been ordered to define the grades and lines of Olive, Charity and Bunker Hill avenues, from Hill to Hope; Second street, and Temple street, from Hill to Hope. This will bring these lands within easy reach of the business part of the city. The distance to the Court House is less than it is from the Turn-of-Hill.

Mr. Beaudry being the owner, by perfect and indisputable title, offers the following scheme, believing that it supplies a felt want.

His various tracts have been surveyed, and platted in lots of convenient size for residences, upwards of two hundred in number, and the maps, together with abstracts of title, are kept for public inspection at his office, opposite the Pico House.

Any person desiring to purchase can inspect the land, select his lot or lots, and acquire the same, if not previously taken up by another, upon the following terms: Purchasers not being restricted to a single lot.

The purchaser or his successor to pay the fixed price of the lands selected by him, in equal monthly installments, as follows: On lots valued at \$400 and upwards, but not to exceed \$500, \$15 per month; on those valued at \$300 and upwards, and less than \$400, \$10 per month. Payments in gold or currency, and no interest demanded. For cash in hand a reduction of fifteen per cent. will be made.

The purchaser to have immediate possession upon payment of the first installment and on execution and delivery of contract.

The right of the purchasers may be assignable by him, and his assigns to succeed to all his privileges and liabilities; standing in all respects towards the vendor as an original obligor.

Purchasers shall not be restricted to the payment of the installments as above shown, but may make payments in advance, and on all such payments he will allow one per cent. per month, from the date of payment until said payment would become due.

Upon selection of a lot or lots by a purchaser, and payment of the first installment with five dollars, in U. S. gold coin, as expenses on the document, Mr. Beaudry with the purchaser, will execute and acknowledge a sealed agreement, embodying the above conditions; and upon full payment, according thereto, the undersigned will execute and deliver to the purchaser, or his lawful representatives, on demand, a good and sufficient and absolute deed of conveyance of the lands, in form of warranty.

These proposals will be kept open until the 12th day of February, 1874.

The location is very desirable. All that has heretofore been lacking is water, and that want is now fulfilled. Anywhere else, in as desirable location, lots readily command from \$500 to \$1,000 and even higher rates. This property is put at the astonishing low price of from \$300 to \$400. But this is not all. This may be paid in current money, and a reduction of fifteen per cent will be made for cash in hand.

CONGRATULATIONS. Subject for tomorrow morning. "Gather up the fragments that nothing be lost." Preaching at the La Brea School House at 3 P. M. Josiah Bates, Pastor pro tem.

The Skating Rink this evening.

To-day the *Cronaca* is three years old and a healthy, lusty young one it is, too.

A granite cross-walk from Temple to Downey Block is among the things to be.

Oranges are now quite ripe, and just fit for transportation. They bring from \$1 to \$3 per hundred.

District Court met yesterday, but adjourned to allow repairs of courtroom to be made.

Supt. Wm. McFadden was in town yesterday. He reports Anaheim all right, and joyful over the rain.

Four cars of freight were dispatched from the depot yesterday, and one received.

One team left the depot, for San Bernardino on New Year's Day. None departed yesterday.

Work on the railroad has been progressing favorably. Our wet weather will cause a little delay.

It is raining. This for people abroad. Over 8 inches of rain have fallen thus far this season.

The holidays are over, and everybody here has settled down to their regular business.

Superintendent McFadden was in town yesterday looking as jolly and goodnatured as ever.

The alarm of fire about nine o'clock yesterday morning was caused by the burning out of a chimney in the Orient Saloon.

The rainfall up to noon yesterday, as shown by Ducommun's gauge, was 1.04 inches. At this writing it is still gently falling.

Doctor Leal has just got a number of large cards printed in colors, in beautiful style, at the Herald job rooms.

The William Taber is announced to sail for the Southern ports, but in this world all is vanity, and especially is this the case with the Taber.

Our prediction of fine weather for the races, only held good for New Year's Day. We don't pretend to know how it is a week ahead.

Louis Messner is receiving a large lot of Old Bourbon and Rye Whiskey, from Kentucky and Buffalo. The Cucamongo Wine Cellar never gets anything in liquid quality.

A. F. Waterman and family, of Illinois, arrived on the Orizaba, and are stopping at the United States Hotel. Mr. Waterman intends to make Los Angeles his home.

We learn the Main Street City Railway Company will begin work on their track to-day, and that there is every prospect that the enterprise will be energetically prosecuted.

Owing to the inclemency of the weather the races advertised for yesterday have been postponed till a fair day. Due notice will be given, and the public must be patient.

The County Council of the Patrons of Husbandry, meet at 2 P. M., to-day, in Good Templar's Hall. Important business will be transacted and unless the rain interferes a full representation of the various granges is expected.

A granite cross-walk is to be built across Spring street from Downey Block to Temple Block as an experiment. We hope the city authorities will not wait till it is worn out, before they build any more.

Gov. Downey, who arrived home on the Orizaba, New Year's Day, was the recipient of a serenade that evening from his admiring fellow-citizens. The governor is a favorite in this city, and this graceful tribute to his private and public worth, does honor to all concerned.

The Twilight Gravel Train, sometime since expressed its abhorrence of educated blackguards. We have since ascertained that its dislike is chiefly entertained towards education, rather than blackguardism, its "kind words" of New Year's Eve, furnishing one of the many little proofs of this.

The idiotic complaint of the *Express* that this paper was established by Santa Barbara capital is on a par with the rest of its performances. That concern will not be petitioning the Legislature for an enactment prohibiting the investment of any more Santa Barbara capital in Los Angeles, or in fact of capital from any source, unless it is used to subsidize the *Express*.

Our colored citizens had a grand time at Leek's Hall, New Year's night. The ball given under their auspices was largely attended, and quite as well conducted as those managed by the white people. In fact, quite a number of our prominent citizens were in attendance, and not a few of them participated in the fun along with the darker hued belles and beaux. Good order was maintained. The refreshments were first class, and everything was lovely.

The number of visitors from the East and various parts of California now in town is greater than at any previous season. Our Eastern friends scarcely appreciate the rain as it keeps them within doors and debars them from walking and driving through our beautiful valleys and teeming orange groves. All the hotels are full, the unpleasant domestic relations culminated in an attempt at suicide. We suppress the names of the parties out of respect for friends, merely noting that the gentleman whose rash attempt on his own life was happily unsuccessful, has recently been married, and moves in the highest circles of society.

It is a little amusing how things get mixed up when different associations are compelled to use the same hall. The M. E. Church South worship in Leek's Hall, and have twice introduced a scene of mirth. The motto over the door leading to the bar, "Glory be to God," is an excellent one for most any place, but it certainly looked a little incongruous, and suggested the propriety of securing churches which need not be used for dancing halls.

## The New Year's Races.

Considering the other attractions of the day, the Clarendon House races were well attended on New Year's day. We noted numbers of our most prominent men on the grounds, and numerous ladies, several on horseback. The half mile dash was a spirited contest, participated in by "Diamond Nose," "Bay Jim," and "Captain Jack." "Diamond Nose" was the favorite, but "Bay Jim" took the race without trouble in fifty seconds.

The second race was a trotting match, three in five, to harness, and was restricted to horses that had never started for money. The entries were "Bonito," Mr. Cade; "Harry," Mr. J. A. Hurl; and "Don Juan," Mr. J. A. Billings. "Don Juan" won the race, distancing the other horses in the second heat.

There was quite an amount of money in the pool boxes, and considerable money changing hands. The races announced for yesterday were necessarily postponed on account of the rain. If the weather is favorable, the whole program will be carried out to-day. If not, due notice will be given of the time.

## Masonic Installation.

At a special meeting of Wilmington Lodge, No. 279, F. & A. M., held December 27th, the following named officers, elected to serve during the ensuing Masonic year, were duly installed in their respective stations and places by Past Master George Hinds, viz. N. A. Narbonne, W. M.; E. N. McDonald, S. W.; B. S. Weston, J. W.; John McCrea, Treas.; R. B. Warren, Sec.; A. A. Polhemus, J. C.; J. D. W. H. Sterlitz, H. J. Jacoby, Stewards; C. Lamour, Tyler.

The following officers of Golden Rule Lodge, I. O. O. F., No. 169, elected for the ensuing year, were installed on Friday evening, Jan. 2, 1914: N. G. J. R. Summers, V. G.; E. H. Owens, S. G.; M. W. Childs, Treas.; G. Pridham, I. G.; S. Benjamin, W. W. Robinson, C. D. Hathaway, R. S. N. G.; V. Wolfenstein, L. S. N. G.; A. Wilson, R. S. V. G.; E. H. W. R. S. N. G.; J. D. W. H. Sterlitz, R. S. S. ## OUR BUSINESS HOUSES.

H. D. BARROWS &amp; CO.

One of the heaviest Houses in the Hardware line is that of H. D. Barrows & Co. on Los Angeles street. They have a very complete establishment, all under one roof, and turn out a quantity of work that is surprising. One of the principal branches of their business is the manufacture of artesian well pipe. As the greater number of these wells are bored through loose gravel, it is necessary that a substantial pipe be driven into the earth out of which the sand and gravel is removed, and through which water pours. Messrs. Barrows & Co. manufacture this pipe out of No. 16 iron, the joints so shaping over the cover end of other half-inch, making a double pipe, of great strength and perfectly tight. The shop for making this pipe is supplied with the latest and most improved machinery, and competent workmen turn out a quality of pipe that is in demand all over the country. Sheet iron water pipe is also manufactured in large quantities. This pipe after being coated with asphaltum is proof against the attacks of rust, and makes a durable and satisfactory pipe.

A large lead pipe and gas and water fixtures are kept constantly on hand, and an experienced plumber is employed. A heavy stock of iron, steel, copper and other metals is kept, and an assortment of miners', blacksmith's and carpenter's tools, equal to any in the city.

Their store contains probably the finest display of agricultural implements and tools in Southern California, prominent among them the splendid plows manufactured by John Deere & Co., of Moline, Ill. These plows have acquired a world wide reputation. In Illinois and Iowa they are the favorite over all others, and immense numbers are shipped to all parts of the West and the South, and even to Egypt, South America and Australia. We do not recollect ever seeing a plow that is so well adapted to the plowing, and were surprised to learn at what a slight advance on the manufacturer's price they were sold. Builders' hardware forms another important item in the varied stock kept by this house. And in fact, the builder, farmer, miner, blacksmith, or carpenter, can hardly go astray for anything they want. About ten hands are constantly at work turning out the various kinds of work that is constantly called for, and the house presents a scene of industry that is quite encouraging to the friends of our city.

## Work on the U. S. Hotel Stopped.

Our good friend Messner, was progressing rapidly with the work on his new hotel addition, and as a preliminary step was filling Los Angeles street up to the proper level, using first a small quantity of adobe which was in the way, and covering it with the gravel from the cellar. At this point the City Council stepped in and passed an order requiring him to stop filling, and to remove from the street all that he had placed there. Mr. Messner and some of the older heads of the Council interposed and procured a modification of the order, so that Messner was allowed to go on with the filling under the Supervision of the City Surveyor. As that functionary has thus far failed to put in an appearance, Mr. Messner has been compelled to suspend operations, and one of the most important improvements in the city has come to a standstill.

Mr. Messner will not build his large and costly edifice if Los Angeles street is left in such a condition that his basement will be flooded every time it rains, and thus, through the hasty action of the Council, or the negligence of an officer, a large and important work is stopped and a great number of men thrown out of employment. It seems to us in times like these, that when a man is willing to put money worth two per cent. a month into a building that is at once an ornament to the city and a great convenience to the public, every effort should be made to encourage him instead of throwing obstacles in his way.

Shooting Scrape—Vessels Missing. About 5 o'clock, New Year's afternoon, three roughs entered the barber shop of Adam Sherbe, on Bryant street, and while one was being shaved, the others broke a glass and frame-work of the door. Sherbe demanded payment, and half a dollar was tendered him, but he wanted one dollar. The men refused to pay, and Regan assaulted him, when fearful of his life he struck one of them with the razor he held in his hand. This determined resistance frightened the roughs, who left. They soon returned and again attacked him, when he drew a deringer and fired two shots, both of which took effect in the abdomen of the second of his assailants. The wounded man fell, and his companions deserted him, when Sherbe gave himself into custody. The man who was cut is named Smith and is seriously injured. The man who was shot is unknown and was conveyed to South San Francisco, but whereabouts is a mystery. Sherbe is under arrest.

It is said that the Riverside people will this spring set out 300,000 vines and trees.

The ice house upon the mountain is being filled with this summer luxury. Already some eighty tons have been put up.

We learn that a company is being formed in Riverside for the purpose of sinking for artesian water within the town limits. Contracts will soon be let.

A petition for the non-repeal of the herd law is being circulated, and with very good success. The points made in the document are very good.

## The Farmers at Work.

There are already three times the amount of land ploughed than ever before at this time of year. Among the large tracts of land in process of seeding may be mentioned the land owned by the Messrs. Wright, where Mr. Short is sowing 200 acres of rye. Mr. Ritchie is plough on his farm of 400 acres; which he contemplates putting in to small grain. Messrs. Safford, Mills, and others are also ploughing on large tracts. The farm weather is bringing the ground forward with great rapidity, causing the stockmen to don a broad smile of satisfaction.
